Application/Control Number: 10/700,429

Art Unit: 3729

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 77-93 and 211-216 drawn to a method of making an IC, classified in class 29, subclass 832.
- II. Claims 94-108, and 217-222 drawn to a method of making and IC, classified in class 29, subclass 832.
- III. Claims 109-210, and 223-258 drawn to a method of making and IC, classified in class 29, subclass 846.
- IV Claims 259-272, drawn to a circuit interconnect, classified in class 29, subclass 884.

The inventions are distinct, each from the other because of the following reasons:

Group I invention is separate and distinct from Groups II and III inasmuch as in Group II a major portion of the substrate must be removed which is not the case for the Groups I and III inventions; Group I is separate and distinct from Group IV inasmuch as these inventions are independent; Group II is separate and distinct from Group IV inasmuch as these inventions are independent; Group !! is separate and distinct from Group III inasmuch as Group III requires no removing step. The initial or starting material can be flexible. Group III is separate and distinct from Group IV inasmuch as these inventions are independent of each other.

Application/Control Number: 10/700,429 Page 3

Art Unit: 3729

Because these inventions are distinct for the reasons given above and the search required for each of the four (4) Groups is independent, restriction for examination purposes as indicated is proper..

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. J. Arbes whose telephone number is (703)308-1857. The examiner can normally be reached on M,T,R,F.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
